

2nd grade

Weekly report

Week of November 3rd – 7th

OUR LEARNING

MATHS: During this week we took the second Maths test in the current term, we measured kilograms and grams and we measured capacity in litres and millilitres.

ENGLISH: This week we introduced opposites words in order to improve vocabulary. Also, we are exercising our reading skills by using fables and short texts.

SCIENCE: This week we introduced several steps which scientist follow in order to investigate. We learnt the concepts of: research, fair testing, observing over time, pattern seeking, identifying and classifying. Each one of them help us to investigate or carry out experiments.

SOCIAL SCIENCE: Esta semana aprendimos sobre patrimonios tangibles y no tangibles, además averiguamos el por qué las iglesias son patrimonio material mientras que las fiestas religiosas son patrimonio inmaterial.

LENGUAJE: Durante esta semana, identificamos las características y propósito del artículo informativo. Además, aplicamos estrategias lectoras en un texto informativo. Finalmente, iniciamos nuestro trabajo de investigación sobre nuestro animal favorito.

COMPUTING: Discutimos sobre los dispositivos de entrada de los computadores y que pueden hacer las maquinas mejor que los humanos.

Miss Carolina Galaz
